After show report **HISTO- LOGICA 2022**

20 - 21
May 2022

Thanks to all of our guests, visitors, the HISTOLOGICA team and last but not least our colleagues from Slee!

HISTOLOGICA 2022

Congress and symposia in Oberhausen, Germany.

Highly motivated exhibition team!

Our team built up a nice booth with new banners, sky-blue branding, cool blue light effects and an invitation to all guests to sit down at the Ergotec working table. First exhibition in Germany with the rebranded CI. The new logo left a measurable impact in the histopathology scene ... Makes us proud!

Matthias Trilling, Alexander Diehl, Heiko Drzonek: We are there for you!

Many visitors stopped by. Actually some were attracted by the images on the screen, asking about stainers or embedding stations.

We were always glad to help. Multimedia bonus: The Aquatec transfer system could not only be seen on the booth but also online on YouTube.com [Aquatec](#).

Click on photo for contact details!

CUT 6062, Aquatec **Ergotec, Ergosit** **MNT**

It was a great pleasure for us to demonstrate our devices, to advise our guests and interested persons on our booth.

Looks like it was a pleasure for our guests, too!

Want some numbers?

Exhibitors: 38

Participants: 261 (from Germany, Austria, Netherlands and Switzerland)

Symposia: 10

Workshops: 3

Want more impressions? Here you are!
