**September 2023**

Thanks to all of our guests, visitors, the fair team and last but not least our clients and interested persons!

# MEDLAB ASIA, BANGKOK

Queen Sirikit National Convention Center - Bangkok, Thailand

Want some numbers?  
Here's a short overview:

<b>9,947 professional visits</b>	135 countries represented
2,642 delegates	15 country pavilions
350 exhibitors	108 speakers

### Alexander Benjamin:

"We are glad that we had the chance for a second consecutive year to participate as exhibitors in one of the **rapidly growing events of South East Asia**. Medlab Asia showed for another year that it has great potential and that it aims to reach the size and significance of her older sister **Medlab Middle East**. This is also harmonized with the **increasing presence of SLEE in the ASEAN region** ...

During this **fruitful event** we had the chance to meet our local partners, but most importantly to get in contact with new partners and end users from the area. We are glad to announce that we are **renewing our presence** for next year, in a bigger exhibition center in the heart of the city!"

# THE 35<sup>TH</sup> ECP, DUBLIN

35<sup>th</sup> European Congress of Pathology, European Society of Pathology

## Want some numbers? Overview over the ECP:

**4,448 participants**      90 sponsors and exhibitors  
from 94 countries      116 live sessions  
in person and / or virtually      1,604 abstracts

Among the cream of the crop of European pathologists - Slee was there! Did you meet Maged Benjamin?  
Click on the photo for contact details!

### Maged Benjamin:

“What a great chance to meet **histologists, histopathologists, cytologists from all over Europe, UK and many other non-EU countries.**

The conference climate was good and friendly. The event came with an impressive number of presentations and live sessions, introducing the latest methods and techniques in all fields of diagnostics - for earlier detection, life saving, and **better tomorrow health** in Europe ...

Topics of the scientific program were all kinds of pathology, of which digital pathology, slide and block tracking systems were taking the first row and already reached out to the next 10 years' future. It was a pleasure to be there.”

# NSH CONVENTION, BALTIMORE

50 years 1973 - 2023 "Connecting. Empowering. Innovating."

Want some NSH numbers?  
Here you are, hot off the press:

850 participants      100+ hours of content  
120 speakers          90+ workshops

Many thanks to Andy Wright and his histopathology team from Mercedes Scientific!

Click on the logo for details of our US partner:

## Stefan Schock:

"What an inspiring show! Andy Wright and his team did a great job, attracting visitors, vendors and valuable contacts. The NSH convention is always **a dive into the histology experts network**, exhibition skating innovations and previews. We've met them all: histotechs and cytotechnicians, pathologists and lab managers, scientists and students. It has been a real pleasure!"

How can we help?  
Do you want to discuss innovations and ideas personally? Need help in terms of sales or marketing?

CUT 6062, with Aquatec transfer system

## 44. MORPHOLOGIE-HISTOLOGIE TAGE 2023

15. – 16. September 2023 in Dresden

### Matthias Trilling:

“The MHT by DVTA is always a great opportunity to get in touch with the **highly specialized applicants** from labs all over Germany. Seminars about molecular pathology and interstitial lung diseases were a hot topic. Workshops topped the program, and in between the participants eagerly took the chance to see the Slee **CUT 6062** microtome in action. It is always a pleasure to be in Dresden.”

***"Thank you all for your efforts, for your commitment to Slee, for your support and your interest in Slee devices. This is what empowers us."***
